

Monitor Rattler Monitors Part No. CM-1250M-3, CM-1250M-4

DESCRIPTION

Chemguard manufactures two styles of fixed mounting fire fighting monitors.

The "RATTLER" is a low profile brass monitor with a full 3" waterway. This unit is ideal for marine, offshore or potentially corrosive atmospheres. Capable of flows up to 1250 gpm, it is easily adjustable in the horizontal plane and then locked in position by a locking mechanism. The vertical travel is controlled by adjustable hand wheel with worm gear drive.

FEATURES

Rattler

- Worm gear enclosed with grease fittings for lubrication

- Vertical travel from 90° above to 60° below the horizontal
- Full 360° rotation
- Stainless steel ball bearings at all rotation joints
- Discharge 2½ male NST
- Red epoxy paint finish
