Top Rim Clamp

Bottom Rim

Model 185R is Adaptable to a range of drum sizes and types.

Handles almost any rimmed drum. Top rim clamp and bottom rim foot secure 55 gallon steel drum and provide great ease of loading. Lift and place vertical or horizontal drum.

Also handles: Plastic or fiber rimmed drum up to 23-1/2" diameter with minimum height of 34". Place chain around front of drum when tilting.

Capacity: 800 Lb.
